CASELLA
CEL

Give your employees the

TUFFest

protection available

Casella's TUFF range of personal air sampling pumps are like giving each of your employees their own personal bodyguard, capable of detecting even the smallest air-borne hazards.

- robust and reliable design for even the harshest of environments
- TUFF pumps are ideally suited to a wide range of occupational health sampling applications from simple abatement sampling of lead and asbestos, to more specialised industrial hygiene monitoring of dusts, fumes and vapours. The units offer excellent functionality at a competitive price.
- ergonomically designed for user comfort and easy-to-read display and high intensity alarm LEDs for fault detection
- rubber over-moulded sealed case
- outstanding operation duration
- exceptional flow control

CEL-350 *d*Badge Personal Noise Dosemeter

APPLICATIONS

- Personal noise exposure
- Workplace noise surveys
- Noise monitoring
- Noise risk assessments

FEATURES

- Stores time history of the noise levels
- 65 - 140dB dynamic range
- Small size and lightweight
- Simple operation
- 32 hour battery life
- Integral display
- Visual alarm function
- No cables

TUFF personal air sampling pumps

- Designed specifically for use in harsh monitoring environments
- Offers a wide flow rate from 5 ml/min to 4.5 l/min
- Ergonomically designed for user comfort
- Extremely robust, rubber over-moulded unit
- Easy to read display
- High intensity alarm LEDs for fault indication
- Meets EN1232 and NIOSH 0600 requirements
- Ideal for a wide range of occupational health sampling from simple abatement of lead and asbestos, to more specialised monitoring of dusts, fumes and vapours.

personalDataRAM™ Series

Measures airborne particulate concentration in real time
All these applications in one small unit

- Indoor air quality monitoring
- Walk-through surveys
- Personal exposure monitoring
- Time & motion studies
- Workplace & plant monitoring
- Fixed-point continuous monitoring
- Remediation personal surveillance
- Remote alarming
- Mobile monitoring in vehicles & aircraft
- Toxicology & epidemiology studies
- Emergency response
- Testing air filtration efficiency

Gijima OHES is a DoL Approved Inspection Authority registered with SAIOH & NACA

The South African National Accreditation System (SANAS) is recognised by the South African Government as the sole National Accreditation Body that gives formal recognition that facilities are competent to carry out specific tasks.

MISSION STATEMENT

To create an impartial and transparent mechanism for organisations to independently demonstrate their competence and facilitate the beneficial exchange of goods, services and knowledge, and to provide a service that is recognised as equitable to best international practice while reflecting the demographics of South Africa in all that we do.

OUR VISION

To pioneer and lead the future of accreditation in Africa and deliver services with the spirit of excellence

SANAS offers accreditation in the following voluntary or regulatory spheres:

- Blood transfusion services (ISO/IEC 17025: Standard of practice for Blood Transfusion in South Africa)
- B-BBEE Verification Agencies (SANAS R47 Document)
- Calibration Laboratories (ISO/IEC 17025)
- Certification Bodies (ISO/IEC 17021: ISO/IEC 17024: ISO/IEC Guide 65)
- Certified Reference Material (ISO Guide 34)
- Compliance Monitoring (GCP-VICH Principles; GLP-OECD Principles of Good Laboratory Practice)
- Inspection Bodies (ISO/IEC 17020)
- Medical Laboratories (ISO/IEC 17025; ISO 15189)
- Proficiency Testing (ISO Guide 43 & ILAC G13)
- Testing Laboratories (ISO/IEC 17025)
- Verification Laboratories (SANS 10378; Trade Metrology Act, Act 77 of 1973)

Specialist in Air Sampling Technologies

MISSION STATEMENT

SKC is an ethical company that believes in the knowledge and understanding of Safety, Health and Environmental awareness with regards to quality customer innovative ideas for air sampling technology. Also ensuring the best advice, support and products associated with all industries that will be to the benefit of the ENVIRONMENT as well as the PEOPLE. SKC also believes in the continued design and development of better, safer equipment that meets the essential health and safety requirements of all of the applicable Product Directives.

OUR VISION

To Ensure that all people are entitle to a Safe, Healthy and clean working Environment which will ensure them a healthy lifestyle.

Market and Products

SKC serves the Industrial Hygiene, Safety, Environmental and Occupational Health markets by providing air sampling instruments and sample collection media with regards to:

- Air sample pumps, calibrators & accessories
- Sorbent sample tubes and collection media
- Gas sample bags
- Validated passive samplers
- Colorimetric Detector Tubes
- Gas Monitors
- Noise Monitoring Instruments
- Vibration Monitors
- Heat Stress Monitors
- IAQ Monitors

SKC has an extensive International Distribution Network that covers Australia, Europe, East Asia, USA, Middle East and AFRICA
